

Multilingual educational programming and facilitation in Italy

We design and deliver workshops, camps, retreat programming, children's engagement, and hosted learning experiences across Northern and Central Italy. Programs delivered in Italian, English, and multilingual formats.

We are typically brought in for

- School holiday and summer camp programming
- Multilingual workshops and facilitated sessions
- Children's and family engagement during retreats or events
- Educational programming for institutions and international groups
- Hosted learning experiences at villas, hotels, and destination venues

Programs

Educational Camps & Holiday Programs
Seasonal programs for children and young people.
Bilingual delivery, age-banded learning blocks.
Institutional Facilitation & Workshops
Multilingual sessions for organizations that work across languages, where translation is not the answer.
Retreat & Event Programming
Programming inside an event you are already running
– adult sessions, family programming, or both.
Children & Family Engagement
Programming delivered by people whose primary discipline is working with children.

The studio

Event Horizon was founded in 2026 to design and deliver multilingual educational and facilitation programs in Italy at a level of seriousness that requires a small, focused team rather than a sole practitioner. Led by Vale Rossi – educator, qualified play therapist, certified yoga instructor – working in Italian, English, and additional languages on request. The studio runs with a small group of named collaborators.

Standards

All facilitators on engagements involving children hold a current Italian *certificato del casellario giudiziale* and a valid pediatric first-aid certification. The studio carries insurance for all engagements (details on request). Adult-to-child ratios are stated in each program proposal. Every facilitator on a program is someone we have worked with before. We do not subcontract anonymous staff.

Inquiries

Tell us what you're organizing and we'll suggest the right format. We respond to institutional inquiries within two working days; program proposals follow within five.
